Message from IAP-National Respiratory Chapter

Indian Academy of Paediatrics , National Respiratory Chapter (IAP-NRC) is actively involved in enriching and expanding the knowledge and practice of paediatricians in the field of paediatric respiratory medicine across the country. Asthma is one of the most common chronic respiratory diseases in children. Paediatricians caring for children with asthma require comprehensive, updated and advanced knowledge of asthma. Advanced Asthma Course has become an important platform to impart the same nationwide. IAP-NRC has already trained more than 500 Paediatricians through this superbly designed course. A precise diagnosis, management and follow-up vis-à-vis parental education and counselling are essential components of asthma care. Advanced Asthma Course provides a complete overview of all areas of asthma care. **After completing 5 batches of the Advanced Asthma course, we are excited to announce the launch of 6th batch.**

- Hybrid nature to be held for 3 months, and 2 days of Physical Contact Session (PCS)
